

DON'T LET YOUR RECYCLING EFFORTS GO TO WASTE.

Recycling right is one small, simple step you can take to help your community and the planet.

Doing your part starts by learning **What's IN** and **What's OUT** of your bin. It's the best way to ensure recyclable items don't end up in the trash and non-recyclable items don't cause contamination or hazards.

Recycling right helps to:

- Conserve natural resources
- Burn less waste
- Provide raw materials to manufacturers
- Keep our recycling workers safe

We'll help you sort it out - Flip over to check out your guide to recycling right.
